## Certifications

Data Structures & Backend with Java

# Ankit Upadhyay

B.Tech CSE(AI&ML) Student | Java & DSA | Learning MERN Stack | Exploring AI & Machine Learning | Tech Learner  
Ghaziabad, Uttar Pradesh, India

## Summary

I am a Computer Science engineering student passionate about problem solving and software development.

I am currently focused on strengthening my fundamentals in Java and Data Structures, while exploring full-stack development using MERN and starting with Machine Learning using Python.

I enjoy building small real-world applications, working on practical college projects, and understanding how technology solves real problems.

Currently Learning: DSA in Java, MERN Stack, Python ML

Interested In: Backend Development, AI, Scalable Systems

Tech Stack: Java, MERN (Basic), Python (Basic ML), Git, SQL

Goal: To become a strong software engineer with excellent problem-solving skills.

---

## Education

Dr. A.P.J. Abdul Kalam Technical University

B.tech, Artificial Intelligence and Machine Learning · (October 2022 - October 2026)

IMS Engineering College

Bachelor of Technology - BTech, Computer Science · (2022)
